FOR SPEAKER OF THE HOUSE.

A Democrat Places C. C. Lyon, Esq., of Bladen, in Nomination

[Special Cor. STATE CHRONICLE.] RALEIGH, N. C., Nov. 12. - Now that the fight is over and the people have shown their confidence in a Democratic Legislature to take care of the affairs of North Carolina, the question naturally arises, who shall enjoy the honor of presiding over the next House of Representatives as Speaker. We conclude without hesitation, that, other things being equal, such honor should be given to the member who, in the late campaign, did the most with the best results for Democracy—did the most to exempt the State from Radical rule and ruin. In this connection, without further prelude, we wish to call the attention of the members elect of the next House to the claims of C. C. Lyon, Esq., of Bladen county, and to urge his election on the

following grounds and for the following very potent reasons: 1st. C. C. Lyon has redeemed Bladen county from the Republicanism and placed her among the Democratic counties. With a negro voting population almost equal to the white, and enough shrewd white Republicans to rally them together. Bladen four miles of railroad. There was not an county has, since the war, been in the demption seemed all but hopeless. Two years ago C. C. Lyon was nominated by the Democratic party for the Legislature and by a vigorous fig t secured his own election by a small ma lity, but the State ticket was defeated in the county by a majority of about one jundred. Receiving the nomination for the House again in 1888, he went into the field almost alone, and the amount and claracter of his work can only be estimated by the results: Besides electing a Democrat to every county office by majorities ranging from 170 to

LEMOCRAT HON. F. M. SIMMONS.

[Special Cor. to STATE CHRONICLE.] The defeat of Hon. F. M. Simmons for Congress in this district is a blow that our people feel keenly. They feel that one of the most useful men in the National Congress has been displaced by an incompetent negro. They feel that the people of the district-both white an I black desired his election, and that it was only the money of the protectionists of the North that prevented him from completely overcoming the majority that this district is expected to give the Republican ticket. They feel that the brave fight that he made in Congress in the interest of tariff reform, that his efforts to break the infamous Cotton Bagging Trust, contributed largely to his defeat. I bewail, with all our people, the de-

people's rights. The State needs the services of such men as Mr. Simmons. His labors in this district centributed largely to the magnificent victory that has crowned the efforts of the good people of North Carolina. Judge Fowle's majority would have been much less but for the work of our able Congressman in this district in arousing and organizing the pople. The greatest gains made in the Sta & were made in the second district, and to Hon. F. M. Simmons and the earnest patriotic men who stood by him in the contest, does the honor

Had Grover Cleveland been elected, we to not doubt but that Mr. Simmons would have been called from private life to serve his country in some honorable and useful position.
